

Convenience guaranteed in the heart of Chelsea

Chelsea Pharmacy Medical Clinic is the only private medical clinic in Chelsea to open until 9pm with a walk in doctor service 7 days a week. Add to this that it also incorporates a well established pharmacy and you can see the convenience that the clinic provides with both medical and pharmaceutical care under one roof open late 7 days a week.

The pharmacy has been established for over 50 years whereas the medical clinic is new and has been open for 2 months and is already popular with the locals of Chelsea who enjoy the fact that a first class friendly medical service is available on their doorstep till late every night of the week. All the GP's are experienced and dedicated to providing an excellent service with a range of special interests between them such as dermatology, gynaecology, diabetes and sport injuries to name a few.

The clinic also has a number of eminent specialists who offer their services in London via the clinic. These include a Hand and Wrist specialist, Chronic Pain specialist, Gynaecologist, Psychiatrist, and a Paediatrician who has a regular surgery on Wednesday afternoons as well as by appointment on other days and evenings.

The medical doctors are joined by a range of allied health professionals who are all well known in their respective fields. Acupuncture, Functional Medicine, Nutrition, Podiatry are services all available at a time to suit you up to 9pm, 7 days a week.

A travel clinic has also been incorporated which allows you to obtain your vaccines, immunisations and malaria medicines all under one roof with the latest up to date advice being provided by doctors and pharmacists. So whether you be travelling to the deepest jungle in Borneo or trekking along the Inca trail, our experienced medical team will ensure your immunised and prepared for all eventualities.

With the rise in sexual transmitted diseases across all sectors of the population the clinic offers a very private STD testing service for the whole range of STD's. Again, having the pharmacy under the same roof ensures that treatment if needed can be commenced immediately without delay.

Another specialised area of medicine that the clinic offers is Aesthetics, with all treatments being provided by experienced aesthetic doctors and dentists. All the products used are from the number one brands and all the treatments are available with a no obligation 15 minute consultation for free.

The aesthetics treatments include, anti wrinkle injections, dermal fillers, face sculpturing and teeth whitening, with treatments also including a free review after 2 weeks.

Anti ageing solutions are also provided using bio-identical hormone therapy by our 'TATLER' endorsed and recommended aesthetic doctor and GP.

Chelsea Pharmacy Medical Clinic is dedicated to providing an exceptional health care experience over a wide range of clinical areas, with accessibility and convenience guaranteed all in the heart of Chelsea on Sloane Avenue.

Please call or visit our social media sites for further information and other services available. ■
